

Smart Solutions

APOLLO

Smart telemetry solutions for remote monitoring,
water control and sewage infrastructure

PRODUCT BROCHURE

APOLLO SMART MOBILE DATA LOGGER

- └ APOLLO is a Smart Data Logger designed to enable monitoring and control of a wide range of parameters in the municipal and agricultural water networks.
- └ APOLLO has IP68 rating and super low power consumption.
- └ APOLLO contains digital and analog inputs to read water meters, flow meters, valves controlling and real time monitoring.
- └ APOLLO robust design allows the product to work in harsh environmental conditions with high humidity, such as sewage pits and water tanks.
- └ APOLLO supports different types of IoT communication protocols.
- └ APOLLO is installed in large amount of projects and utilities all over the world.

APPLICATIONS

TECHNICAL DATA

- └ 4 digital inputs
- └ 2 digital outputs
- └ 2 analogue inputs
- └ ModBus RS485
- └ Built-in pressure sensors
- └ Pressure sensors range 0-10/0-20 bar
- └ IP68
- └ 2G/3G/4G NB-IoT/LTE-M Modems
- └ Internal memory of 90,000 values
- └ Product life - up to 10 years
- └ Option to connect external voltage or solar panel

MAIN APPLICATIONS

- └ Level monitoring sewage trenches and water pools and alerts in case of level deviation
- └ Flow reading and cumulative reading of water meters
- └ Measuring pressure in transmission lines accurately and quickly
- └ Remote opening and closing of control valves
- └ Location of water hammer in order to minimize damage to pipes
- └ Consult for specific applications according to your need: size, temperature, turbidity, chlorine, etc.

FEATURES

- └ Remote monitoring of the level of manholes
- └ Pressure control
- └ Monitoring of water distribution
- └ Leak detection
- └ Web/Network Interface
- └ On-line continues flow monitoring
- └ Automatic alerts
- └ Wide range of solutions for municipal market

ZEUS WEB - WEB INTERFACE

The APOLLO is supported by a friendly and intuitive web interface called ZEUS WEB.

The ZEUS WEB interface enables real-time alerts and a wide range of reports and graphs.

ZEUS WEB Main Features:

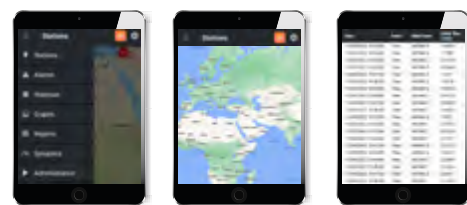

- └ Dedicated cloud based server
- └ Bi- directional communications for remote sending of commands
- └ Intuitive HMI screens
- └ Data export to PDF and Excel files
- └ Data hosting for analytical evaluations
- └ Support for integration with existing customer systems
- └ Support in eight different languages

ZEUS MOBILE – ADVANCE MOBILE APPLICATION

The mobile application ZEUS MOBILE allows the user to view data and information same as the ZEUS WEB but via a dedicated application on the mobile phone.
